

Decarbonization Roadmap

Towards Net Zero and A Sustainable Future

1

SET REALISTIC TARGETS

Establish
a baseline

Align
targets

Measure
progress

2

OPTIMIZE EXISTING ASSETS

Identify
inefficiencies

Evaluate
optimization
opportunities

Implement
and monitor

3

PRIORITIZE CAPITAL PLANNING

Include
GHG reductions
in project
specifications

Consider
alternative
payment
models

Increase
efficiency
with
digitization

4

PLAN FOR THE FUTURE

Tackle
process
emissions

Turn waste
into
energy

Embrace
resource
recovery
