xylem
Let's Solve Water

Gain Immediate Insights of your Installations and Control of your Workflow

KEEP AN OVERVIEW OF ALL YOUR INSTALLATIONS AT ALL TIMES

The current environment puts a lot of stress on your team, workflow and infrastructure. Break-out teams and shift rotation reduce risk of the virus spreading among all of us, but also reduce efficiency.

Our service support can assist you with your maintenance and call outs while reducing downtime.

- Our mechanics are easy to assign to your maintenance and breakdowns

- Constant insight into workflow progress

- The LMRA is a native part of the workflow, to ensure safe working environment

- Easy to use, easy to access, and scalable. Software is adaptable for use on all devices
