

TotalCare Services

MAINTENANCE CONTRACTS

Xylem is the only integrated wastewater service provider operating across the UK and Ireland, with over 220 trained and experienced field operatives, specialising in submersible pumping station maintenance. In the face of limited resources and cost-cutting requirements, many pump users and treatment system operators are looking for smart ways to avoid expensive repairs and emergency callouts.

With a service contract from Xylem, you can ensure maximum equipment uptime for the lowest overall cost.

This gives you total peace of mind.

+ What is a service contract?

A planned preventative maintenance agreement is a cost-effective service contract from Xylem TotalCare tailored to meet your specific requirements and budget. Xylem can offer coverage for pumps, treatment systems and equipment manufactured by us as well as those manufactured by other suppliers.

+ Why Xylem?

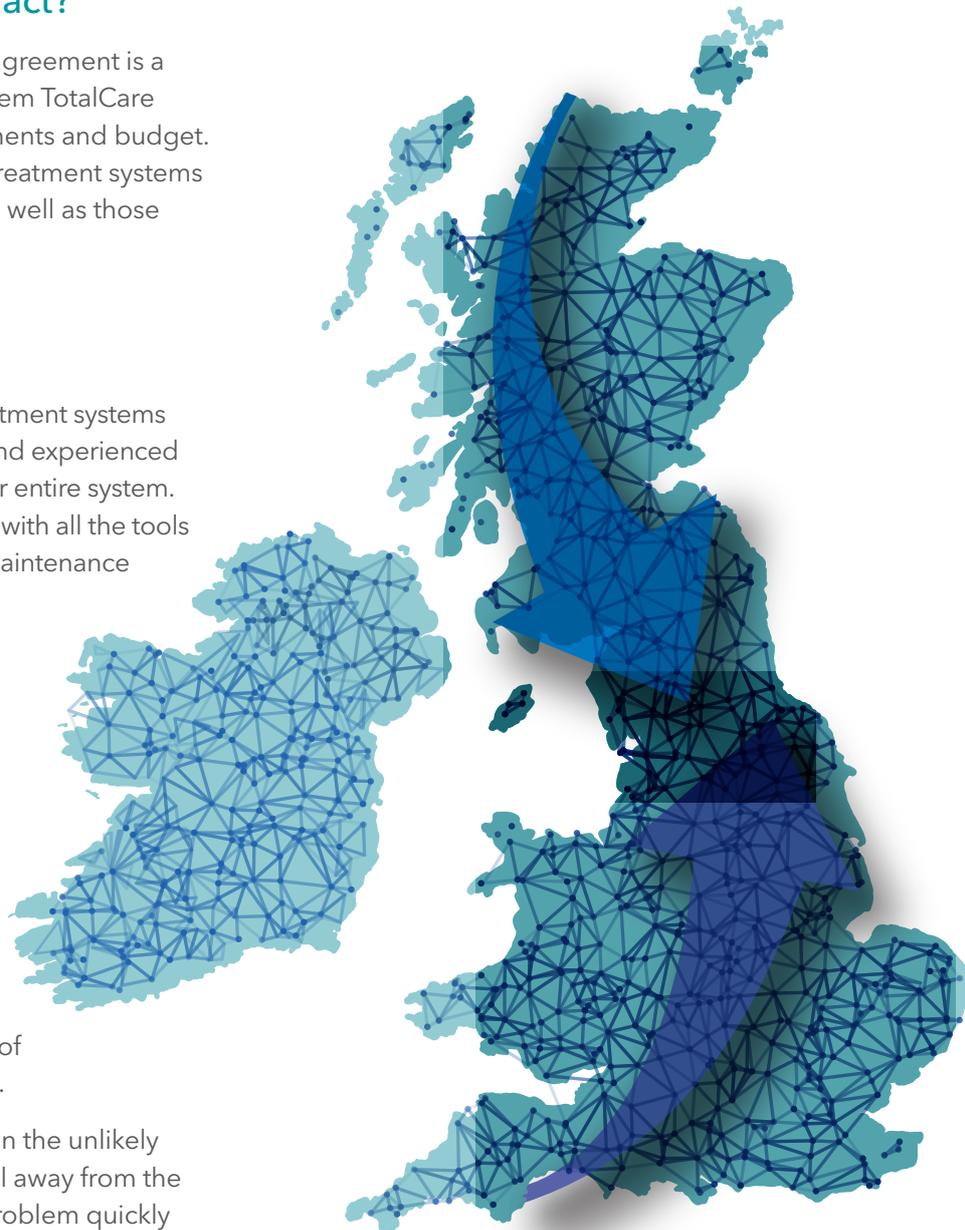

No one understands pumping and treatment systems better than Xylem. Our highly trained and experienced service technicians can take care of your entire system. Our service vehicles are fully equipped with all the tools required to carry out inspections and maintenance in a professional and efficient manner.

If a service technician encounters an unusual problem that requires specialised support, they have fast and easy access to Xylem's global network of experts.

+ The bottom line

With a planned agreement from Xylem, you no longer have to worry about the condition and performance of your pumps and treatment equipment.

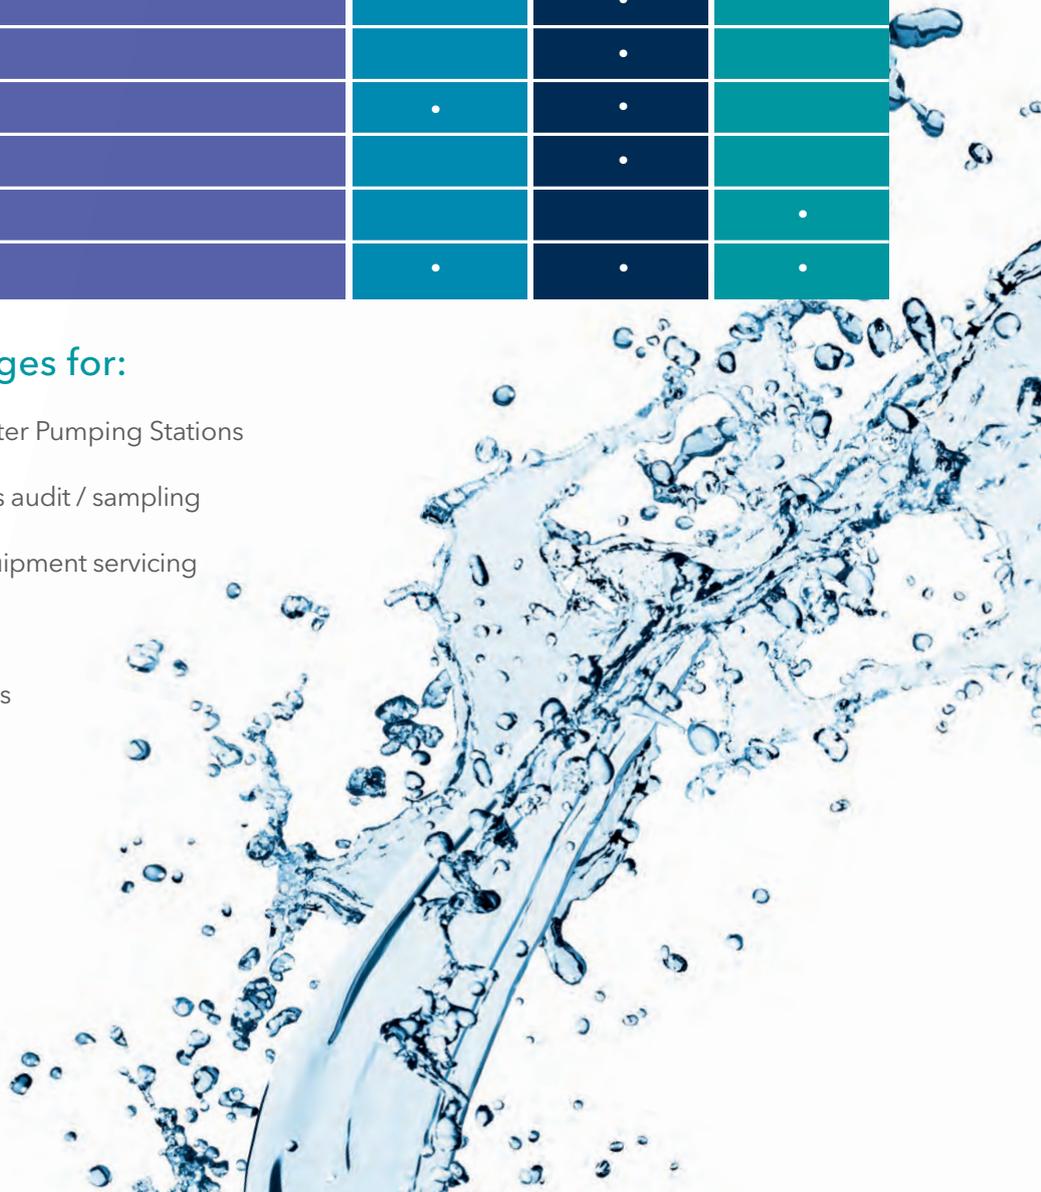

The risk of breakdown is very low and in the unlikely event of failure you are just a phone call away from the qualified help you need to solve the problem quickly and cost efficiently.
