

# DON'T FORGET PREVENTATIVE PROTECTION

For Your System, Resources and Investment

### Your System

- Optimize performance

### Your Resources

- Maximize uptime

### Your Investment

- Lower operation costs

**Water quality is your number one priority.** A preventative maintenance agreement from Xylem is a vital asset in maintaining the most reliable and robust water treatment system. We know - this is a big deal!

A cost-effective PMA can be tailored to meet your specific requirements and budget while allowing you to retain high operational standards.

**CUSTOMIZE YOUR  
PREVENTATIVE  
MAINTENANCE AGREEMENT:**

**Work with your commercial representative, outline the priorities and features of the plan to provide the services and protection that best suits your needs.**

to find your nearest  
Wedeco representative

**Optimize the performance of your system:**

A PMA from Xylem includes at least one scheduled inspection and/or maintenance visit per year.

- Inspections identify any potential weaknesses in your system and provide the opportunity to resolve issues before they negatively affect your treatment process.
- Global access to resources for quality parts, specialized tools, solid product knowledge and process expertise.

**Maximize your resources and uptime:**

No one understands the relationship between UV or ozone processes, operational costs, equipment and controls better than Xylem. Our global network ensures you maximize your resources and provides:

- Highly trained and experienced service technicians and process engineers to care for your entire system.
- Service technicians prepared to carry out inspections and maintenance in a professional and efficient manner.
- Fast and easy access to local engineers and specialized support services.

**Maintain your investment:**

With a PMA from Xylem, you no longer have to worry about the condition and performance of your treatment process and related instruments, equipment and control system. But in the unlikely event of failure you are just a phone call away from the qualified help you need to solve the problem quickly and cost-efficiently.
